DIV OF OIL GAS & MINING

RE: Mammoth Ridge Trespass  
T37S, R5W, Section 6, W2SW4, SLB&M

Dear Mr. Burningham:

On August 9, 2005, I notified you by letter that Burningham Enterprises has opened a quarry in trespass of state trust lands upon Mammoth Ridge, in Garfield County. I advised you of the penalties provided by law and asked you to submit a complete accounting of all materials mined from the site.

On September 2, 2005 you submitted a statement of production from the Mammoth Ridge site and a check in the amount of \$41,253.00, @ \$1.00 per ton. It is not clear whether your payment is for the entire tonnage of materials mined from the site or whether you have any unpaid stockpiles on hand. Please submit a written statement of any unpaid stockpiles, whether on-site or off-site.

I suggest that you meet with the Trust Lands Administration as soon as possible to further discuss the trespass and the possible issuance of a mineral lease. Please call for an appointment. Meanwhile, no further activity by Burningham Enterprises is authorized upon these lands.

Sincerely,

John T. Blake  
Mineral Resources Specialist
